

CERRO DE PASCO RESOURCES INC.
(FORMERLY GENIUS PROPERTIES LTD.)

MANAGEMENT'S DISCUSSION AND ANALYSIS

Three-month and six-month periods ended

June 30, 2019

(Second Quarter)

MANAGEMENT'S DISCUSSION AND ANALYSIS

This management discussion and analysis ("MD&A") of Cerro de Pasco Resources Inc., ("Cerro de Pasco Resources" or "CDPR" or the "Company") (formerly known as Genius Properties Ltd.) follows rule 51-102 of the Canadian Securities Administrators regarding continuous disclosure.

The following MD&A is a narrative explanation, through the eyes of the management of Cerro de Pasco Resources, on how the Company performed during the three-month and six-month periods ended June 30, 2019. It includes a review of the Company's financial condition and a review of operations for the three-month and six-month periods ended June 30, 2019 as compared to the three-month and six-month periods ended June 30, 2018.

This MD&A complements the condensed interim consolidated financial statements for the three-month and six-month periods ended June 30, 2019 but does not form part of them. It is intended to help the reader understand and assess the significant trends, risks and uncertainties related to the results of operations and it should be read in conjunction with the condensed interim consolidated financial statements as at June 30, 2019 and related notes thereto as well as the audited consolidated financial statements, accompanying notes and Management's Discussion and Analysis for the year ended December 31, 2018.

The condensed interim consolidated financial statements for the three-month and six-month periods ended June 30, 2019 and 2018 have been prepared in accordance with the International Financial Reporting Standards ("IFRS") applicable to the preparation of condensed interim consolidated financial statements. The accounting policies applied in the financial statements are based on IFRS issued and effective as at June 30, 2019. On August 29, 2019, the Board of Directors approved, for issuance, the condensed interim consolidated financial statements.

All figures are in Canadian dollars unless otherwise stated. Additional information relating to the Company can be found on SEDAR at www.sedar.com. The shares of Cerro de Pasco Resources are listed on the Canadian Securities Exchange ("CSE") under the symbol "CDPR".

REPORT'S DATE

The MD&A was prepared with the information available as at August 29, 2019.

CAUTION REGARDING FORWARD-LOOKING INFORMATION

This MD&A contains forward-looking statements that are based on the Company's expectations, estimates and projections regarding its business, the mining industry in general and the economic environment in which it operates as of the date of the MD&A. To the extent that any statements in this document contain information that is not historical, the statements are essentially forward-looking and are often identified by words such as "anticipate", "expect", "estimate", "intend", "project", "plan" and "believe". In the interest of providing shareholders and potential investors with information regarding Cerro de Pasco Resources, including management's assessment of future plans and operations, certain statements in this MD&A are forward-looking and are subject to the risks, uncertainties and other important factors that could cause the Company's actual performance to differ materially from that expressed in or implied by such statements. Such factors include, but are not limited to: volatility and sensitivity to market metal prices, impact of change in foreign currency exchange rates and interest rates, imprecision in reserve estimates, environmental risks including increased regulatory burdens, unexpected geological conditions, adverse mining conditions, changes in government regulations and policies, including laws and policies; and failure to obtain necessary permits and approvals from government authorities, and other development and operating risks. The preliminary assessments contained in the Technical Report referred to in this MD&A, and the estimates contained therein to date are preliminary in nature and are based on a number of assumptions, any one of which, if incorrect, could materially change the projected outcome.

Although the Company believes that the expectations conveyed by the forward-looking statements are based upon information available on the date that such statements were made, there can be no assurance that such expectations will prove to be correct. The reader is cautioned not to rely on these forward-looking statements.

MANAGEMENT'S DISCUSSION AND ANALYSIS

The Company disclaims any obligation to update these forward-looking statements unless required to do so by applicable Securities laws. All subsequent forward-looking statements, whether written or orally attributable to the Company or persons acting on its behalf, are expressly qualified in their entirety by these cautionary statements.

NATURE OF ACTIVITIES

Cerro de Pasco Resources Inc. and its subsidiaries (hereafter the "Company" or "Cerro de Pasco Resources" or "CDPR") is a resource management company attuned to the most demanding environmental, social and legal compliance required by global institutions and investors. The key strategic strength of the Company is an unparalleled knowledge of the challenges and opportunities presented by the minerals endowment within the city of Cerro de Pasco combined with a highly experienced and practical team of both Peruvian and international management. The key focus of the Company will be on developing the El Metalurgista mining concession using world class geo-resource and industrial development solutions in order to secure long-term economic operational sustainability in harmony with a healthy and prosperous local population. The plan of the Company is to reprocess tailings and stockpiles at the Cerro de Pasco site and also to revive and modernize all existing installations at the mining complex the "Project".

BUSINESS DEVELOPMENT HIGHLIGHTS

- **Trading halt**

On April 10, 2019, a temporary trading halt was requested by CDPR in anticipation of potential transactions. The Company expected to be able to announce such transactions in the near future. The Company will disclose any transactions as soon as they will occur. It is expected that trading of CDPR shares will resume after such announcement.

- **Exercise of warrants**

In April 2019, a total of 10,090,078 warrants have been exercised at a price of \$0.25 per warrant representing a cash injection of \$2,522,520. This brings the total warrants exercised since March 1, 2019 to 10,473,328 representing a total of \$2,618,333 of new cash into the Company.

BUSINESS DEVELOPMENT SUBSEQUENT EVENT

- **Trading halt**

On August 13, 2019, due to IIROC's trading halt guidelines, trading in CDPR's shares have been resumed in anticipation of potential transactions. CDPR was expected to announce transactions at an earlier point in time, however final negotiations are currently taking longer than anticipated. While CDPR expects to be able to announce such transactions shortly, CDPR cannot guarantee these transactions will close. CDPR will disclose the transactions as soon as they occur.

PROJECT DEVELOPMENT HIGHLIGHTS

During the three-month period ended June 30, 2019, the Company continued to focus its efforts on developing its Project. These efforts were focused on the following area of importance:

- **Community relations**

The Company continued to spend a significant amount of time communicating the opportunities of the El Metalurgista Project to the two adjacent local communities, Quiulacocha and Excelsior. Community support is integral for the success of any project in Peru. The Company continued to spend capital and time effort in communicating all the benefits of the proposed project to the members of the community. This was achieved by production of materials highlighting those benefits, distribution of those materials to the local communities, one on one communication with relevant stakeholders of the communities and

MANAGEMENT'S DISCUSSION AND ANALYSIS

general assembly meetings with the community population at large. The Company also hosted several cultural activities, participated in several sponsorship opportunities, and donated miscellaneous items to the children attending school.

- **Government relations**

The Company continued to spend a time and capital communicating the opportunities of the El Metalurgista Project to the local and national government of Peru. The company employed various consultants to produce technical materials, related to health, safety, environment and communities. The materials highlighted the opportunities of the project and the potential positive impact it will have on Cerro De Pasco.

- **Environmental Impact Declaration**

On July 26, 2019 the Company presented an Environmental Impact Declaration (Declaración Impacto Ambiental) (the "DIA") for the Quiulacocha tailings deposit before the Peruvian Ministry of Energy and Mines for evaluation and approval.

The DIA provides the details and coordinates for the 40-hole Drilling Program that CDPR intends to carry out on its El Metalurgista Concession located within the Quiulacocha tailings deposit. The Quiulacocha tailings deposit covers 115 hectares and is estimated to hold approximately 70 million tonnes of tailings which contain recoverable metals such as silver, zinc, lead, copper, gold and other strategic metals.

- **Formal Proposal to Peruvian Ministry of Energy and Mines**

Since the start of 2019 the Company has been in discussions with the legal department of the Peruvian Ministry of Energy and Mines (the "MINEM") with regards to finding the best legal mechanism for the State of Peru to grant the company with the tailings areas which surround the El Metalurgista concession. On July 26th, 2019 the Company provided MINEM with a formal proposal and legal remedy for the State to grant the Company rights to the entire tailings area for the Company to conduct a comprehensive analysis and develop an effective retreatment and remediation plan. In this regard the Company has proposed to provide MINEM with an irrevocable performance guarantee with respect to the activities the Company plans to carry out on the surround tailings.

- **The Company's Commitments to Internationally-Accepted Industry Practices for Environmental, Community, Safety, Anti-Corruption, and Corporate Social Responsibility (CSR) Matters**

In the second quarter of 2019 the Company board of directors approved several policies related to Environment, Community, Safety, Anti-Corruption, and Corporate Social responsibility (CSR).

CDPR's key focus is the environmental remediation through the extraction of remaining valuable minerals from the stockpiles and deposits generated by previous local mining activities. CDPR endorses and conducts responsible mining practices. CDPR will utilize up-to-date technology and industrial development solutions to secure long-term economic sustainability and a healthy and prosperous local population at Cerro de Pasco.

CDPR clearly recognizes that the communities and the environments in which it operates in are inter-dependent and that it may be held accountable for any effects and potential consequences. The proper management of these inter-connecting activities is essential to the economic well-being of CDPR. Therefore, CDPR is totally committed to having first-rate programs for: protection of the environment; providing safe workplaces for its employees and contractors; responsibly and ethically managing our relationships with its Project stakeholders and in the local communities where it operates; and, ensuring that CDPR is one that readily accepts and promotes itself as following the principles of corporate social responsibility or CSR.

CDPR has a rigorous commitment to the principles of corporate social responsibility, anti-corruption ethics, sound environmental practices, safe working conditions for our employees, and positive community involvement in its Projects. To that end, CDPR has strong, formal policies on these matters, which conform to generally-accepted international standards, that have been formally adopted by the CDPR Board.

MANAGEMENT'S DISCUSSION AND ANALYSIS

CDPR's development of the Cerro de Pasco Project will be guided by internationally-accepted core principles and strategic goals. As such, CDPR will be driven by the Principles of Performance (listed below) of the International Council on Mining and Metals (ICMM), a well-respected international organization dedicated to a safe, fair, and sustainable mining and metals industry. The ICMM is comprised of 26 of the world's leading mining and metals companies and 35 regional and commodities associations.

1. Apply ethical business practices and sound systems of corporate governance and transparency to support sustainable development;
2. Integrate sustainable development in corporate strategy and decision-making processes;
3. Respect human rights and the interests, cultures, customs and values of employees and communities affected by our activities;
4. Implement effective risk-management strategies and systems based on sound science and which account for stakeholder perceptions of risks;
5. Pursue continual improvement in health and safety performance with the ultimate goal of zero harm;
6. Pursue continual improvement in environmental performance issues, such as water stewardship, energy use and climate change;
7. Contribute to the conservation of biodiversity and integrated approaches to land-use planning;
8. Facilitate and support the knowledge-base and systems for responsible design, use, re-use, recycling and disposal of products containing metals and minerals;
9. Pursue continual improvement in social performance and contribute to the social, economic and institutional development of host countries and communities; and
10. Proactively engage key stakeholders on sustainable development challenges and opportunities in an open and transparent manner. Effectively report and independently verify progress and performance.

- **Execute an agreement for the use of nearby milling and processing facilities.**

The Company continued to spend time and capital on finalizing an agreement for the use and or purchase of the nearby milling and processing facilities. The Company is bound by a confidentiality agreement and as such is not able to comment on the status of this endeavour but hopes to conclude the matter shortly.

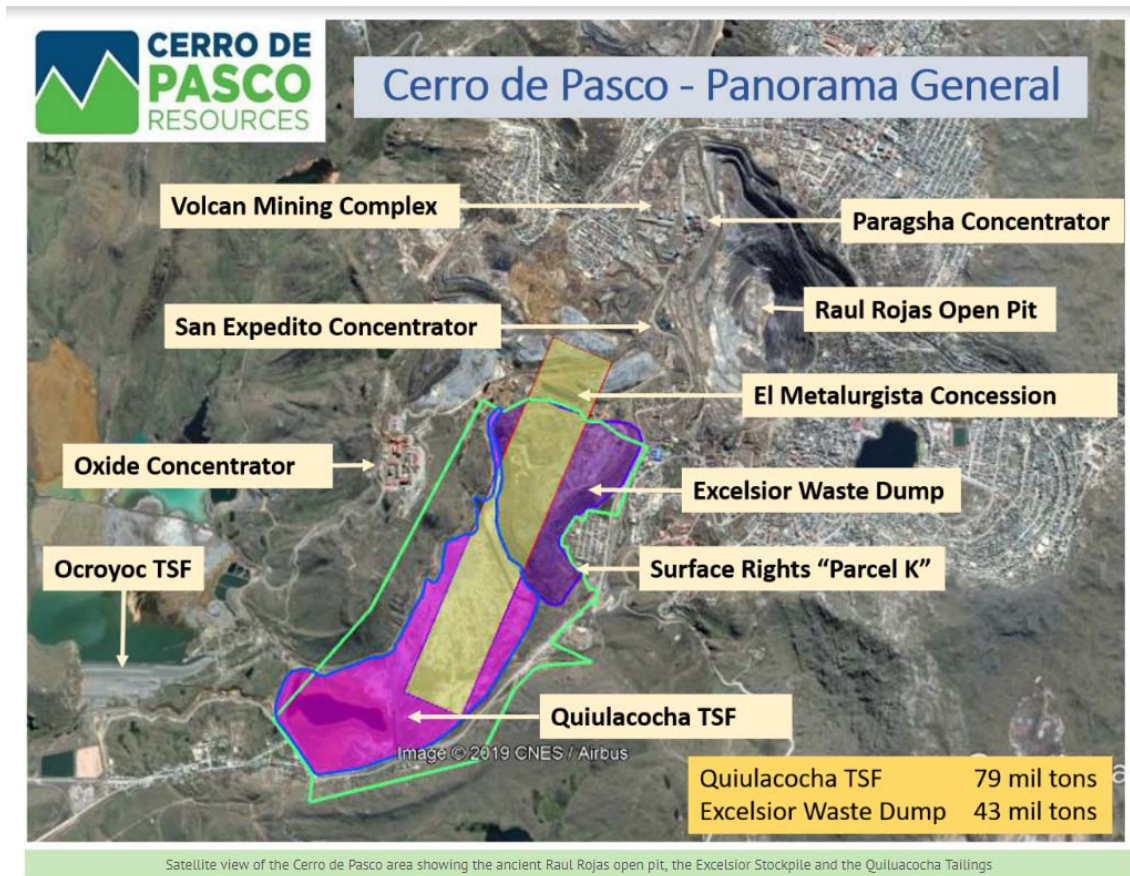

CORPORATE OBJECTIVES FOR 2019

- Execute an agreement with the Ministry of Energy and Mines to operate subject to confirmation of mineral resource and completion of studies.
- Execute an agreement for the use of nearby milling and processing facilities.
- Complete environmental impact assessment study.
- Conduct metallurgical testing and bulk-sampling.
- Complete internal engineering studies for the comprehensive surface rehabilitation and development of remaining in site resource

CURRENT PROJECTS

Cerro De Pasco

- Cerro de Pasco was one of the oldest and largest polymetallic mines in the world, operating for almost 400 years.
- The Quiulacocha tailings facility contains approximately **79MT of processable mineral**, from the Cerro de Pasco mining complex.
- The Excelsior Stockpile, likewise, from the mine, contains **104MT with an estimated 43Mt** of mineral that could be processed at nearby concentrators Paragsha and San Expedito.
- Currently, these facilities are working well below installed capacity and efficiency and, therefore the possibility exists for either a tolling agreement or an acquisition of all processing facilities at Cerro de Pasco

The Excelsior Mineral Pile and Quiulacocha Tailings

The Excelsior property consists of the Excelsior Mineral Pile (“EMP”) and Quiulacocha Tailings (“QT”) which are residues generated by the processing of the Cerro de Pasco Mine Pb-Zn-Ag-Cu ore located 310 km from Lima, in east-central Peru.

The Cerro de Pasco mine became one of the world's richest silver producing regions after base and precious metals were discovered in 1630. The EMP left from the mine operations contains an estimated 104Mt of which an estimated 43Mt can be economically processed and the QT contains 79Mt of which an estimated 79Mt could be economically processed. Cerro de Pasco Resources Inc. through its Peruvian Branch, Cerro de Pasco Resources Sucursal del Peru, owns 100% of the mineral rights of the El Metalurgista Concession, where the EMP and QT are located.

MANAGEMENT'S DISCUSSION AND ANALYSIS

The Excelsior stockpile has been extensively explored by RC drilling, trenching and tested through metallurgical test work programs.

The EMP occupies an area of 94 ha and contains 26,400,000 m³ of fragmentary rocks forming terraces composed of sulfide-rich rocks, sericitized volcanic and carbonate (dolomitic) rocks. Metal-bearing minerals consist of sphalerite (Zn), tennantite (Cu), cerussite (Pb), enargite (Cu) and galena (Pb, Ag-rich). The more reliable Historical Resources Estimate generated 42.89 Mt @ 0.09 wt. % Cu (85.1 M lb), 0.73 wt. % Pb (690.3 M lb), 1.59 wt. % Zn (1696.1 M lb) and 66.1 g/t Ag (91.1 M oz) with Pb+Zn= 2.33 wt. %*.

The QT cover a surface of 114 ha and contain approximately 79 Mt of pyrite-bearing tailings of two different types: Cu-rich and Zn-Pb-rich sulphides. The best Historical Resources Estimate generated a total of 2.94 Mt @ 43.1 g/t Ag (4.1 M oz), 418 ppm Cu, 0.79 wt. % Pb (51.2 M lb) and 1.43 wt. % Zn (92.7 M lb)*.

Satellite view of the Cerro de Pasco area showing the ancient Raul Rojas open pit and the Quiulacocha Tailing (QT) and Excelsior Mineral Pile (EMP).

* The estimates presented above are treated as historic information and have not been verified or relied upon for economic evaluation by the Issuer or the writer. These are considered historical Mineral Resources and do not refer to any category of sections 1.2 and 1.3 of the NI-43-101 Instrument such as Mineral Resources or Mineral Reserves as stated in the 2010 CIM Definition Standards on Mineral Resources and Mineral Reserves. The explanation lies in the inability by the authors to verify the data acquired by the various historical drilling campaigns and other sampling works. The authors have read the documents pertaining to the description of the different methods used in the historical evaluation of the Mineral Resources. The Issuer has not done sufficient work yet to classify the historical estimates as current Mineral Resources or Mineral Reserves. Therefore, the Issuer is in the opinion that the above quoted resources for the EMP and QT cannot be relied upon.

Our Business Plan

The plan of the Company is to reprocess tailings and stockpiles at Cerro de Pasco and to use these to revive and modernise all existing installations at the mining complex.

The pit still holds significant reserves and resources. The current political, social and economic climate in Peru creates a positive platform from which the Company can execute its vision for a fully integrated and multi-dimensional economic rehabilitation of all of the current and legacy minerals assets around the city of Cerro de Pasco. Cerro de Pasco Resources continues to advance a dialogue with leading experts on mineral waste recycling and site remediation with the aim of achieving an ambitious “zero waste” solution and the creation of a Circular Economy for the city of Cerro de Pasco. The Company has received encouraging signals from multiple levels of the Peruvian Ministry of Energy and Mines beckoning an intensive exploration and development phase starting in 2019.

Our Concept Proposal

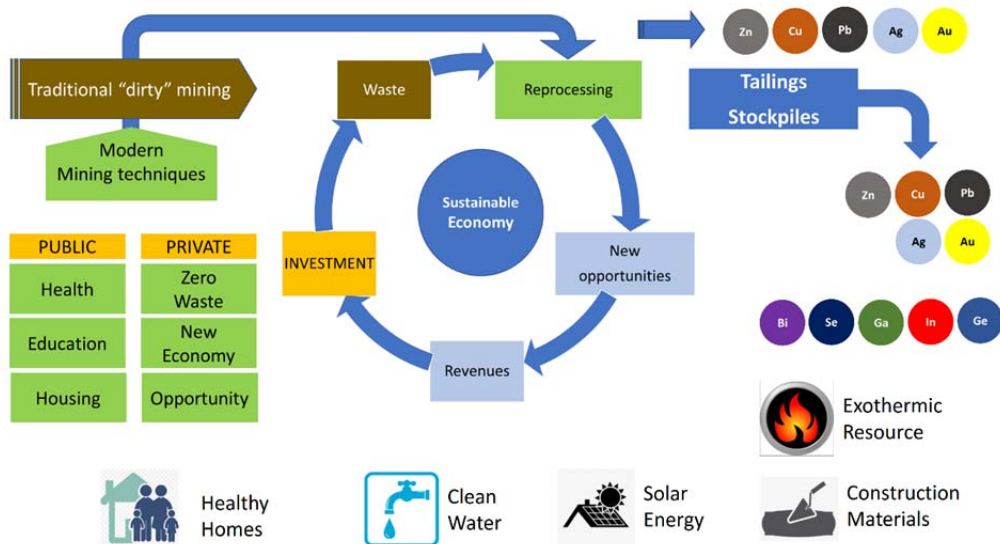

SUSTAINABLE DEVELOPMENT OF THE CERRO DE PASCO COMPLEX TOWARDS A MODERN ZERO WASTE OPERATION

The future of Cerro de Pasco will depend on the application of the latest science in geo-resource and industrial development. The town's history has, until now depended entirely on conventional “dirty” mining of commodity metals. However, new science can secure long-term economic sustainability in harmony with a healthy and prosperous local population. The initial objective of this project will be to drive the productive utilization of all material resources available at Cerro de Pasco and new industrial activities that will further perpetuate prosperity into the future. To achieve a series of objectives, Cerro De Pasco will need to start by integrating all its resources and introducing techniques to reprocess all tailings and stockpiles contained within the entire complex.

MANAGEMENT'S DISCUSSION AND ANALYSIS

The Concept starts with a complete exploration of the potential of the resources present at Cerro de Pasco and their current impact on the environment (to include a Baseline study of the entire Cerro de Pasco Watershed). It also includes the development of a sustainable inline extraction process towards the elimination of all waste. This implies a search for and separation of critical elements like Rare Earth Elements (REE), Platinum Group Elements (PGE) and other strategic elements (Ge, In, Ga) as well research and innovation to use of the main volume of the known waste material (pyrite, carbonates, and silicates). An example is the innovative exploitation of the heat capacity of pyrite for home heating systems for the population of Cerro de Pasco. Additionally, a new concept for the sustainable urban development of Cerro de Pasco will be created to strengthen the social impact by providing better living conditions for the whole population of Cerro de Pasco. This implies the attraction of secondary industries drawing benefit from the entire range of geo-resources present at Cerro de Pasco (including classical commodities (Pb, Zn, Ag, Bi, Cu, Au) as well as innovative commodities (including pyrite, carbonate, silicates).

The positive impacts will be immense in terms of job creation, poverty reduction and quality of life at Cerro de Pasco, a city with over 50,000 inhabitants and a unique history in, and loyalty to mining. CDPR will promote a broad spectrum of initiatives including urban re-planning, health and welfare in collaboration with the local and national authorities. Under the initial plan, households will be relocated from the most heavily contaminated areas. Cerro De Pasco Resources can therefore become the nucleus for sustainable growth, renewing the site's ageing infrastructure and plant and employing the latest technologies to create an emblematic project.

Exploration outlook

As part of the next steps in the development of the project, the Company will first need to update the historical Mineral Resource Estimates performed on the QT and EMP to render them compliant with the NI43-101 and CIMM norms. Regarding the EMP Resource Estimate, re-sampling of the 2009 RC drill holes (if retrievable) and pits, and sinking of twin holes will be necessary. The upgrading to Indicated or Measured Mineral Resources may also require additional RC drill holes to tighten the spacing which currently sits at 30 to 50 m. Note the QT Mineral Resource Estimates concerns about 225,000 m² of tailings area; less than half of the total surface. The Company is evaluating a sonic drilling program to expand the QT resources.

Thereafter the company will endeavor to complete a detailed feasibility study for the reprocessing of either the Tailings and or Stockpile.

MANAGEMENT'S DISCUSSION AND ANALYSIS

MINING PROPERTIES & EXPLORATION AND EVALUATION ASSETS

Mining properties and exploration and evaluation assets for the three-month period ended June 30, 2019.

MANAGEMENT'S DISCUSSION AND ANALYSIS

QUALIFIED PERSON

Dr. Michel Boily P.Ge, is the qualified person under NI 43-101 who has reviewed and approved the technical information contained in this document for the Canadian and Peruvian properties.

FINANCIAL INFORMATION

Functional and presentation currency

These selected quarterly financial information and other financial information are presented in Canadian dollars, the Company's functional currency.

IFRS Accounting policies

The Company's significant accounting policies under IFRS are disclosed in Note 5 in the audited annual consolidated financial statements for the year ended December 31, 2018.

Use of estimates and judgements

Please refer to Note 3.5 of the 2018 audited annual consolidated financial statements for an extended description of the information concerning the Company's significant judgments, estimates and assumptions that have the most significant effect on the recognition and measurement of assets, liabilities, income and expenses.

Changes in accounting policies

The Company's changes to accounting policies are disclosed in Note 4.1 in the condensed interim consolidated financial statements for the three-month and six-month periods ended June 30, 2019.

New standards and interpretations that have not yet been adopted

The information is provided in Note 4.2 of the condensed interim consolidated financial statements for the three-month and six-month periods ended June 30, 2019.

Reverse takeover

The information is provided in Note 6 in consolidated financial statements for the year ended December 31, 2018.

Dividends

Since its incorporation, the Company has not paid any cash dividends on its outstanding common shares. Any future dividend payment will depend on the Company's financial needs to fund its exploration programs and its future growth, and any other factor that the Board may deem necessary to consider. It is highly unlikely that any dividends will be paid in the near future.

SELECTED QUARTERLY FINANCIAL INFORMATION

Cerro de Pasco Resources anticipates that the quarterly and annual results of operations will primarily be impacted for the near future by several factors, including the timing and efforts of the exploration's expenditures and efforts related to the development of the Company. Due to these fluctuations, the Company

MANAGEMENT'S DISCUSSION AND ANALYSIS

believes that the quarter to quarter and the year-to-year comparisons of the operating results may not be a good indication of its future performance.

The following selected quarterly financial information is derived from our unaudited condensed annual financial statements for each of the two most recently completed financial years.

The net loss of \$944,219 for Q2-2019 is attributable to general and administrative expenses of \$851,506.

The net loss of \$2,330,496 for Q1-2019 is mostly attributable to the grant of 5,450,000 share options to directors, officers, consultants and an employee which the fair value was estimated at \$1,337,905.

The net loss of \$14,385,457 for Q4-2018 is attributable to listing costs expenses of \$13,754,103 related to the RTO of October 5, 2018.

MANAGEMENT'S DISCUSSION AND ANALYSIS

The net loss of \$491,534 for Q3-2018 is attributable to general and administrative expenses of \$474,702.

The net loss of \$375,988 for Q2-2018 is attributable to general and administrative expenses of \$359,534.

The net loss of \$564,766 for Q4-2017 is attributable to general and administrative expenses of \$543,287.

Results of operations for the three-month period ended June 30, 2019

Net loss

The basic and diluted loss per share for the three-month period ended June 30, 2019 is \$0.00 as compared to \$0.00 for the three-month period ended June 30, 2018.

During the three-month period ended June 30, 2019, the Company realized a net loss of \$944,219 as compared to a net loss of \$375,988 for the three-month period ended June 30, 2018.

The increase of \$568,231 for the three-month period ended June 30, 2019 in net loss as compared to 2018 is due to an increase in the volume of operating activities. The increase in net loss is mostly attributable to an increase of \$491,972 in operating expenses (\$851,506 in Q2-2019 as compared to \$359,534 in Q2-2018).

Operating expenses

During the three-month period ended June 30, 2019, operating expenses were \$851,506 as compared to \$359,534 for the three-month period ended June 30, 2018.

The increase of \$491,972 for the three-month period ended June 30, 2019 as compared to 2018 in operating expenses is attributable to an increase in the volume of operating activities. The increase in operating activities is mostly attributable to an increase of \$211,653 in management and consulting fees (\$311,183 in Q2-2019 as compared to \$99,530 in Q2-2018) combined with an increase of \$127,167 in professional fees (\$185,533 in Q2-2019 as compared to \$58,366 in Q2-2018) and an increase of \$144,368 in business development expenses (\$159,204 in Q2-2019 as compared to \$14,836 in Q2-2018).

Other expenses (revenues)

During the three-month period ended June 30, 2019, the other expenses were \$92,713 as compared to other expenses of \$16,454 for the three-month period ended June 30, 2018.

The increase of \$76,259 for the three-month period ended June 30, 2019 in other expenses as compared to 2018 is attributable to an increase in exchange loss of \$61,695 (\$61,063 in exchange loss in Q2-2019 as compared to \$632 in exchange gain in Q2-2018).

Results of operations for the six-month period ended June 30, 2019

Net loss

The basic and diluted loss per share for the six-month period ended June 30, 2019 is \$0.01 as compared to \$0.00 for the six-month period ended June 30, 2018.

During the six-month period ended June 30, 2019, the Company realized a net loss of \$3,274,715 as compared to a net loss of \$506,782 for the six-month period ended June 30, 2018.

The increase of \$2,767,933 for the six-month period ended June 30, 2019 in net loss as compared to 2018 is due to an increase in the volume of operating activities. The increase in net loss is mostly attributable to an

MANAGEMENT'S DISCUSSION AND ANALYSIS

increase of \$2,645,958 in operating expenses (\$3,166,375 for the six-month period ended June 30, 2019 as compared to \$520,417 for the six-month period ended June 30, 2018).

Operating expenses

During the six-month period ended June 30, 2019, operating expenses were \$3,166,375 as compared to \$520,417 for the six-month period ended June 30, 2018.

The increase of \$2,645,958 for the six-month period ended June 30, 2019 as compared to 2018 in operating expenses is attributable to an increase in the volume of operating activities. The increase in operating activities is mostly attributable to an increase of \$548,392 in management and consulting fees (\$691,745 for the six-month period ended June 30, 2019 as compared to \$143,353 for the six-month period ended June 30, 2018) combined with an increase of \$279,542 in professional fees (\$377,426 for the six-month period ended June 30, 2019 as compared to \$97,884 for the six-month period ended June 30, 2018), an increase of \$350,503 in business development expenses (\$388,216 for the six-month period ended June 30, 2019 as compared to \$37,713 for the six-month period ended June 30, 2018), and an increase in share-based compensation expense of \$1,337,905 (\$1,337,905 for the six-month period ended June 30, 2019 as compared to \$Nil for the six-month period ended June 30, 2018).

Other expenses (revenues)

During the six-month period ended June 30, 2019, the other expenses were \$108,340 as compared to other revenues of \$13,635 for the six-month period ended June 30, 2018.

The increase of \$76,259 for the six-month period ended June 30, 2019 in other expenses as compared to 2018 is attributable to an increase in exchange loss of \$107,458 (\$66,690 in exchange loss for the six-month period ended June 30, 2019 as compared to \$40,768 in exchange gain for the six-month period ended June 30, 2018).

CASH FLOWS

Cash flows used for operating activities

Cash flows used for operating activities were \$1,945,567 during the six-month period ended June 30, 2019, an increase of \$1,629,143 as compared to cash flows of \$316,424 from operating activities during the six-month period ended June 30, 2018. The increase of \$1,629,143 in cash flows for operating activities is mostly explained by an increase of \$1,308,053 in general and administrative expenses excluding the share-based compensation of \$1,337,905 (\$1,828,470 for the six-month period ended June 30, 2019 excluding the share-based compensation of \$1,337,905 as compared to \$520,417 for the six-month period ended June 30, 2018).

Cash flows from financing activities

Cash flows from financing activities were \$2,646,801 during the six-month period ended June 30, 2019, an increase of \$1,956,022 as compared to cash flows of \$690,779 from financing activities during the six-month period ended June 30, 2018. The increase of \$1,956,022 is mostly attributable to an increase of \$2,618,332 of the proceeds from warrants exercised (\$2,618,332 for the six-month period ended June 30, 2019 as compared to \$Nil for the six-month period ended June 30, 2018).

Cash flows used for investing activities

Cash flows used for investing activities were \$2,290 (acquisition of equipment) during the six-month period ended June 30, 2019, a decrease of \$251,313 as compared to cash flows of \$253,603 used for investing activities during the six-month period ended June 30, 2018 for the acquisition of rights to a mining property.

MANAGEMENT'S DISCUSSION AND ANALYSIS

OTHER FINANCIAL DISCLOSURES

Related party transactions

Please refer to Note 12 of the condensed interim consolidated financial statements for the three-month and six-month periods ended June 30, 2019, for a summary of the Company's transactions with related parties.

Commitments and contingency

Please refer to Note 16 of the condensed interim consolidated financial statements for the three-month and six-month periods ended June 30, 2019, for a summary of the Company's commitments and contingencies.

Subsequent events

There were no subsequent events.

Off-financial position arrangements

As at June 30, 2019, the Company had no off-financial position arrangements.

Going concern assumption

The accompanying consolidated financial statements have been prepared on the basis of the on going concern assumption meaning the Company will be able to realize its assets and discharge its liabilities in the normal course of business. In assessing whether the going concern assumption is appropriate, management takes into account all available information about the future, which is at least, but not limited to, 12 months from the end of the reporting period.

Management is aware, in making its assessment, of material uncertainties related to events and conditions that may cast a significant doubt on the Company's ability to continue as a going concern and, accordingly, the appropriateness of the use of accounting principles applicable to a going concern. These financial statements do not reflect the adjustments to the carrying values of assets and liabilities, expenses and financial position classifications that would be necessary if the going concern assumption was not appropriate. These adjustments could be material.

For the six-month period ended June 30, 2019, the Company recorded a net loss of \$944,219 (\$375,988 in 2018) and has an accumulated deficit of \$20,688,023 as at June 30, 2019 (\$17,413,308 as at December 31, 2018). Besides the usual needs for working capital, the Company must obtain funds to enable it to meet the timelines of its exploration programs and to pay its overhead and administrative costs. As at June 30, 2019, the Company had a working capital of \$1,969,750 (a working capital of \$1,063,885 as at December 31, 2018) consisting of cash and cash equivalents of \$2,107,619 (\$1,364,140 as at December 31, 2018). Management believes that these funds will not be sufficient to meet the obligations and liabilities of the Company. These uncertainties cast significant doubt regarding the Company's ability to continue as a going concern. Any funding shortfall may be met in the future in a number of ways, including but not limited to, the issuance of new equity instruments. Given that the Company has not yet determined whether its mineral properties contain mineral deposits that are economically recoverable, the Company has not yet generated income nor cash flows from its operations. The recovery of the cost of exploration and evaluation assets as well as other tangible and intangible assets, is subject to certain conditions: the discovery of economically recoverable reserves, the ability of the Company to obtain the necessary financing to continue the exploration, evaluation, development, construction and ultimately disposal of these assets. During the six-month period ended June 30, 2019, the Company has raised \$2,668,332 from warrants exercised and private placements consisting of common shares to fund exploration works and working capital. While management has been successful in raising financing in the past, there is no assurance that it will succeed in obtaining additional financing in the future.

MANAGEMENT'S DISCUSSION AND ANALYSIS

Capital management policies and procedures

The Company's capital management objectives are to ensure its ability to continue as a going concern and to maximize the return of its shareholders. The Company's definition of capital includes all components of equity. Capital for the reporting periods under review is summarized in Note 14 and condensed interim consolidated statement of changes in equity in the condensed interim consolidated financial statements for the three-month and six-month periods ended June 30, 2019. In order to meet its objectives, the Company manages the capital structure and makes adjustments to it in the light of changes in economic conditions and the risk characteristics of the underlying assets. The Company finances its exploration and evaluation activities principally by raising additional capital either through private placements or public offerings. When financing conditions are not optimal, the Company may enter into option agreements or other solutions to continue its exploration and evaluation activities or may slow its activities until conditions improve. No changes were made in the objectives, policies and processes for managing capital during the reporting periods.

RISK AND UNCERTAINTIES

Cerro de Pasco Resources is subject to a variety of risks, some of which are described below. If any of the following risks occur, the business, results of operations or financial condition could be adversely affected in a material manner.

Financial instrument risks

Please refer to Note 15 of condensed interim consolidated financial statements for the three-month and six-month periods ended June 30, 2019 for a summary of the Company's financial instruments risks.

MANAGEMENT'S DISCUSSION AND ANALYSIS

Certain Risks associated with the Quiulacocha Tailings and Excelsior Stockpile

Cerro de Pasco Resources will be solely focused on the exploration and development of the Property. Cerro de Pasco has initiated negotiations with local stakeholders for gaining access to a portion of the surface lands that Cerro de Pasco Resources will require for processing the tailings, dumps and slag to which Cerro de Pasco's "El Metalurgista" concession entitles it to. It is the intention of Cerro de Pasco Resources to pursue the negotiations and reach an agreement with local stakeholders. There is however no guarantee that such an agreement will be reached. Unless Cerro de Pasco Resources acquires additional property interests, any adverse developments affecting the Property could have a material adverse effect upon Cerro de Pasco Resources and would materially and adversely affect any profitability, financial performance and results of operations of Cerro de Pasco Resources.

Exploration and mining risks

The Company is engaged in the business of acquiring and exploring mineral properties in the hope of locating economic deposits of minerals. The Company's property interests are in the exploration and evaluation stage only. The business of mineral exploration involves a high degree of risk. Few properties that are explored are ultimately developed into production. Currently, there are no known bodies of commercial ore on the mineral properties of which the Company owns an interest. Accordingly, there is little likelihood that the Company will realize any profits in the short to medium term. Any profitability in the future from the Company's business will be dependent upon locating an economic deposit of minerals. However, there can be no assurance, even if an economic deposit of minerals is located, that it can be commercially mined.

Unusual or unexpected formations, fires, power outages, labour disruptions, flooding, cave-ins, landslides and the inability to obtain suitable or adequate machinery, equipment or labour are other risks involved in the conduct of exploration programs.

The economics of developing mineral properties is affected by many factors including the cost of operations, variation of the grade of ore mined and fluctuations in the price of any minerals produced. There are no underground or surface plants or equipment on the Company's mineral properties, nor any known body of commercial ore. Programs conducted on the Company's mineral property would be an exploratory search for ore.

Titles to property

While the Company has diligently investigated title to the various properties in which it has interest, and to the best of its knowledge, title to those properties are in good standing, this should not be construed as a guarantee of title. The properties may be subject to prior unregistered agreements or transfer, or native or government land claims, and title may be affected by undetected defects.

Permits and licenses

The Company's operations may require licenses and permits from various governmental authorities. There can be no assurance that the Company will be able to obtain all necessary licenses and permits that may be required to carry out exploration, development and mining operations at its projects.

Metal prices

Even if the Company's exploration programs are successful, factors beyond the control of the Company may affect marketability of any minerals discovered. Metal prices have historically fluctuated widely and are affected by numerous factors beyond the Company's control, including international, economic and political trends, expectations for inflation, currency exchange fluctuations, interest rates, global or regional consumption patterns, speculative activities and worldwide production levels. The effect of these factors cannot accurately be predicted.

MANAGEMENT'S DISCUSSION AND ANALYSIS

Competition

The mining industry is intensely competitive in all its phases. The Company competes with many companies possessing greater financial resources and technical facilities than itself for the acquisition of mineral interests as well as for recruitment and retention of qualified employees.

Environmental regulations

The Company's operations are subject to environmental regulations promulgated by government agencies from time to time. Environmental legislation provides for restrictions and prohibitions of spills, release or emission of various substances produced in association with certain mining industry operations, such as seepage from tailing disposal areas, which could result in environmental pollution. A breach of such legislation may result in imposition of fines and penalties. In addition, certain types of operations require submissions to and approval of environmental impact assessments. Environmental legislation is evolving in a manner which means stricter standards and enforcement, fines and penalties for non-compliance are more stringent. Environmental assessments of proposed projects carry a heightened degree of responsibility for companies and directors, officers and employees. The cost of compliance with changes in governmental regulations has a potential to reduce the profitability of operations. The Company intends to fully comply with all environmental regulations.

Conflicts of interest

Certain directors or proposed directors of the Company are also directors, officers or shareholders of other companies that are similarly engaged in the business of acquiring, developing and exploiting natural resource properties. Such associations may give rise to conflicts of interest from time to time. The directors of the Company are required by law to act honestly and in good faith with a view to the best interests of the Company and to disclose any interest which they may have in any project or opportunity of the Company. If a conflict of interest arises at a meeting of the board of directors, any director in a conflict will disclose his interest and abstain from voting on such matter. In determining whether or not the Company will participate in any project or opportunity, the directors will primarily consider the degree of risk to which the Company may be exposed and its financial position at that time.

Stage of development

The Company's properties are in the exploration stage and to date none of them have a proven ore body. The Company does not have a history of earnings or providing a return on investment, and in future, there is no assurance that it will produce revenue, operate profitably or provide a return on investment.

Industry conditions

Mining and milling operations are subject to government regulations. Operations may be affected in varying degrees by government regulations such as restrictions on production, price controls, tax increases, expropriation of property, pollution controls or changes in conditions under which minerals may be mined, milled or marketed. The marketability of minerals may be affected by numerous factors beyond the control of the Company, such as government regulations. The effect of these factors cannot be accurately determined.

Uninsured risks

The Company's business is subject to a number of risks and hazards, including environmental conditions adverse, environmental regulations, political uncertainties, industrial accidents, labour disputes, unusual or unexpected geological conditions, ground or slope failures, cave-ins, and natural phenomena such as inclement weather conditions, floods and earthquakes. Such occurrences could result in damage to mineral properties or production facilities, personal injury or death, environmental damage to the Company's properties or the properties of others, delays in mining, monetary losses and possible legal liability.

MANAGEMENT'S DISCUSSION AND ANALYSIS

Capital needs

The exploration and evaluation, development, mining and processing of the Company's properties may require substantial additional financing. The only current source of future funds available to the Company is the sale of additional equity capital and the borrowings of funds. There is no assurance that such funding will be available to the Company or that it will be obtained on terms favourable to the Company or will provide the Company with sufficient funds to meet its objectives, which may adversely affect the Company's business and financial position.

In addition, any future equity financings by the Company may result in a substantial dilution of the existing shareholders. Failure to obtain sufficient financing may result in delaying or indefinite postponement of further exploration and evaluation, development or production on any or all of the Company's properties or even a loss of property interest.

Key employees

Management of the Company rests on a few key officers and members of the Board of Directors, the loss of any of whom could have a detrimental effect on its operations. The development of the Company's business is and will continue to be dependent on its ability to attract and retain highly qualified management and mining personnel. The Company faces competition for personnel from other employers.

Canada Customs and Revenue Agency

No assurance can be made that Canada Customs and Revenue Agency will agree with the Company's characterization of expenditures as Canadian exploration expenses or Canadian development expenses or the eligibility of such expenses as Canadian exploration expenses under the *Income Tax Act* (Canada).

CERTIFICATION OF INTERIM FILINGS

The President and Chief Executive Officer and the Chief Financial Officer have signed the Basic Certifications of Interim Filings as required by National Instrument 52-109 for venture issuer, thus confirming, the review, the absence of misrepresentations and the fair presentation of the interim filings.

- The President and Chief Executive Officer and the Chief Financial Officer confirm to have reviewed the interim financial report and the interim MD&A (together, the "interim filings") of the Company for the three-month period ended June 30, 2019.
- Based on their knowledge, having exercised reasonable diligence, the President and Chief Executive Officer and the Chief Financial Officer confirm that the interim filings do not contain any untrue statement of a material fact or omit to state a material fact required to be stated or that is necessary to make a statement not misleading in light of the circumstances under which it was made, for the period covered by the interim filings.
- Based on their knowledge, having exercised reasonable diligence, the President and Chief Executive Officer and the Chief Financial Officer confirm that the interim financial report together with the other financial information included in the interim filings fairly present in all material respects the financial condition, financial performance and cash flows of the issuer, as of the date of and for the period presented in the interim filings.
